

WATER  TECH

# EXTRAORDINARY WATER BEGINS HERE

## REIONATOR PRO<sup>®</sup>

The Reionator Pro<sup>®</sup> delivers the latest in home water improvement technology, using the most advanced scientific capabilities to deliver clean, clear, healthy water that feels fantastic and will improve the quality of life for your family.

Water is vital to human life. The Reionator Pro<sup>®</sup> will raise the standard of the water you use. When you experience water from the Reionator Pro<sup>®</sup>, you will realize this is more than just superior water—this is a superior life.

# SEE, FEEL & TASTE THE DIFFERENCE.

## REIONATOR<sup>PRO</sup>

### Smoother, Cleaner Skin and Hair

The Reionator Pro<sup>®</sup> reduces chlorine, hardness, and that “slippery” soft water feel, unveiling the transformative benefits of cleaner, healthier, and clearer water- leaving you with stronger, healthier, radiant skin and hair.

### Protect Your Home investment

Safeguard for your household. Eliminating hard water preserves appliances and plumbing, preventing costly damage and fostering a healthier living environment.

### Experience Water Excellence

Enjoy a refreshing beverage experience. By removing impurities and contaminants, taste is enhanced and better health is promoted. Say goodbye to the unpleasant aftertaste in your beverages.

### Better for the Environment & Budget

Embrace unmatched efficiency in energy, water, and salt usage, enabling you to relish the comforts of soft water, save money, and contribute to a greener planet- all in one eco-conscious choice.

### Cleaning Made Easy

Enjoy spotless dishes, crystal-clear glassware, and impeccably clean laundry. Soft water will reduce the need for excess soap and detergent, making your household chores easier and more cost-effective.

## HOW IT WORKS

Water flows into the system through the industry-leading Triton control valve that anticipates usage and self-initiates cleaning, making it 40-50% more efficient in energy, water and salt conservation.

Water then flows into the industrial-grade composite tank and through the positively charged TechSelect resin addressing chlorine, sulfates\*, nitrates\* and the "slippery" soft water feel.

Next, water flows through the negatively charged TechSoft resin reducing or removing hardness, iron\* and lead\* (certified to NSF 42/44)

Clean, filtered water then flows effortlessly through the efficient AquaHelix™ plate and is delivered to your home providing better tasting, healthier water and cleaner laundry, softer skin, easier cleaning, as well as soap, energy, and appliance savings.

When the Triton control valve indicates the TechSelect/TechSoft resins need to be cleaned and recharged, it automatically initiates the process using salt solution from the brine tank, in concert with the AquaHelix™ plate, to efficiently lift and clean the resin while providing significant salt and water savings due to its revolutionary design.
