

WATER  TECH

THE ULTIMATE WATER EXPERIENCE

REIONATOR ULTRA

For those who refuse to compromise on quality, the Reionator Pro Ultra[®] is for you. It is the top shelf of all water improvement products—it has no peers. When you install the Reionator Pro Ultra[®], premium water circulates throughout your home, improving and elevating everything it touches.

REIONATOR^{PRO} ULTRA

Only the Best for You

Created for those who expect the very best, our customers truly value the importance of elite water quality, with delicious beverage-grade water from every faucet in their home.

Protect Your Home

Experience peace of mind knowing your appliances, faucets, glass and plumbing are protected from the very harmful effects of hard water scale build up. Enjoy a luxury that truly pays for itself.

Smoother, Cleaner Skin and Hair

See and feel the positive effects of cleaner, healthier, and clearer water, giving you stronger, healthier, radiant skin and hair.

Better for the Environment & Budget

Realize maximum energy, water and salt efficiency, which means you can enjoy the amazing benefits of soft water comfortably, save money, and be mindful of the planet at the same time.

Experience Water Excellence

Address a multitude of mineral, chemical and disinfectant contaminants. In short, the ReionatorPro Ultra[®] makes your water safer and healthier.

Not your Standard Soft Water

Standard soft water can leave you with the uncomfortable "can't wash the soap off" feeling. The Reionator Pro Ultra[®] reduces that slippery feeling, giving you water so clean, you will feel the difference.

EXCEPTIONAL WATER FOR AN EXCEPTIONAL LIFE.

HOW IT WORKS

Water flows into the system through the industry-leading Triton control valve that anticipates usage and self-initiates cleaning, making it 40-50% more efficient in energy, water and salt conservation.

Water then flows into the upper chamber of the industrial-grade composite tank and through the TechSorb media blend addressing chlorine, chloramines*, VOCs*, disinfection byproducts*, and other emerging contaminants* (certified to NSF 61).

Water flows to the lower chamber and through the TechSelect and TechSoft dual resin bed addressing any residual chlorine, sulfates*, nitrates*, "slippery" soft water feel and then reducing or removing hardness, iron* and lead* (certified to NSF 42/44).

Clean, filtered water then flows effortlessly through the efficient AquaHelix™ plate and is delivered to your home providing better tasting, healthier water and cleaner laundry, softer skin, easier cleaning, as well as soap, energy, and appliance savings.

When the Triton control valve indicates the TechBlend resin needs to be cleaned and recharged, it automatically initiates the process using salt solution from the brine tank, in concert with the AquaHelix™ plate, to efficiently lift and clean the resin while providing significant salt and water savings due to its revolutionary design.
