

A photograph of a commercial water softening system. Several large white pipes are visible, some wrapped in white insulation. A yellow and black striped tape with the text "DOMESTIC HOT WATER" is wrapped around the pipes. In the foreground, a large, light green cylindrical tank is visible, equipped with a black control head featuring a digital display and buttons. The background shows more pipes and a wall with a green and white striped pattern.

SOFTEN YOUR WATER. STRENGTHEN YOUR BUSINESS.

COMMERCIAL SOFTMAX™

Every business can reap the benefits of soft water. Our innovative Commercial SoftMAX water treatment system removes hardness with high-quality softening resins that help you save energy and make facility operations more efficient.

When you eliminate hardness causing minerals, you improve your business's water efficiency by up to 40%. Soft water also means longer lasting water-circulating appliances, plumbing, equipment and fixtures as well as more cleaning power from soaps and detergents.

Reduce hard water. Improve your bottom line. It's that simple.

COMMERCIAL SOFTMAX™

REDUCE HARD WATER. IMPROVE YOUR BOTTOM LINE. IT'S THAT SIMPLE.

Saves Energy

Minerals will no longer clog pipes. Water-using equipment will be free of scale buildup, last longer and will perform more efficiently resulting in energy savings of up to 30%.

Saves Money

You can reduce utility bills, labor costs, maintenance costs and equipment expense.

Enhances Customer Experience

Customers will notice spot-free tableware and glassware, softer towels and overall cleaner facilities.

Reduces Detergent and Chemical Use

Softened water has no mineral hardness to react with or overcome, reducing detergent and chemical requirements by up to 50%.

Increases Equipment Lifespan

Reduces scale buildup in machines, plumbing, equipment, and appliances, which ensures peak efficiency and increased lifespan of your equipment.

BUILT TO LAST. GUARANTEED TO SATISFY.

The SoftMAX Commercial Series is built with the best commercial-grade, corrosion-resistant parts in the industry. We are confident the SoftMAX Commercial series system will meet the requirements of many business applications including:

- Restaurants
- Hotels
- Apartment complexes
- Food processing
- Beverage industry
- Convenience stores
- Hair salons
- Fitness centers
- Much, much more

Backed by a Strong Commercial Warranty

To show our confidence in the SoftMAX Commercial Series, WaterTech provides a strong commercial warranty – a five-year warranty on all parts, including valve, electronics, parts and tanks.

Multiple Configurations Available

Flexible Choice of Valve Sizes	1.5", 2", and 3"
Assortment of Available Tank Sizes	Up to 63" diameter
Variety of Softening Capacities	Up to 2,300,000 grains*
Large Range of Possible Flow Rates	Up to 275 gpm*

* Per tank; multiple tank configurations available

Model	Grains Capacity (@9 Lbs/@ 15 Lbs Salt Settings)	Continuous Flow Rate (gpm) @ 15 PSID	Peak Flow Rate (gpm) @ 25 PSID	Maximum Flow to Drain (gpm)	Resin Tank Size	Brine Tank Size
